

SWIMMING POOL REGULATIONS

- SET BACK:** All swimming pools must meet the required set backs from property lines. Section 403.2 (A) (B) (C) & (D)
- FENCING:** All ground level pools must be fenced. The fence shall be at least 4 feet in height with opening no longer than 4 inches. The gate shall be self-closing and lockable.
- POOL DRAINAGE:** Pool water must be discharged into a storm drain if possible. If no storm drain is available the pool must be drained into a drainage ditch. If neither storm drain no drainage ditch is available, the water can be drained in the street next to the curb and drained in the closest storm drain. At no time can the pool water be drained into the street and allowed to stand on the street.
- MAINTENANCE:** the water in all existing and future above ground and in ground pools must circulate at 12 hours of each 24 hour period. In the event that the water in said pools does not circulate 12 hours out of every 24 hour period, then said pool must be covered with a pool cover. Water must not be allowed to accumulate and stand on the pool cover between April 1st and October 31st of each year.

PENALTY FOR VIOLATION – SEE SECTION, 2500.0
