Project Submittal Document Requirements

2021 Arkansas Fire Prevention Code Vol. II Section 105.1

Anyone who **intends to construct, enlarge, alter, repair, move, demolish or change the occupancy of a building or structure, or to erect, install, enlarge, alter, repair, remove, convert or replace any electrical, gas, mechanical or plumbing system, the installation of which is regulated by this code, or to cause any such work to be performed, shall first make application to the building official and obtain the required permit, where required.**

2021 Arkansas Fire Prevention Code Vol. II Section 107.1 Submittal Documents

Submittal documents consisting of construction documents including structural, mechanical, electrical and plumbing must be submitted with each permit. The documents must be prepared by a design professional, an architect or engineer legally registered under the laws of the State of Arkansas. The design professional shall affix his or her official seal to documents, specifications and accompanying data for the following:

1. All Group A, E and I occupancies, except Group A occupancies with an occupant load less than or equal to 50.
2. Buildings and structures three or more stories in height.
3. Buildings and structures 5,000 square feet or more in area.

Once the appropriate plans are submitted they will be reviewed by the Planning Office and the Fire Marshal's Office for compliance before a permit will be issued.
